

Letter of Statement

To: Spanish Ministry of Health and to whom it may concern:

Here we Shenzhen Bioeasy Biotechnology Co., Ltd. would like to make a statement and the introduction of Bioeasy to you after the news appeared this 26th march 2020:

As a legal entity, Bioeasy was established on 2007, is a high-tech enterprise, We have facilities covering total area of 30000 square meters. 12000 m² is used for R & D and manufacturing purposes, including 500 m² Class 10,000 and Class 100,000 cleanrooms and 800 m² cold storage. Complete platforms have been established for immunology, molecular biology, chemical synthesis, molecular construction and testing equipment development. There is totally 385 employees working with Bioeasy, and we gathered a large number of industry-leading biology, chemistry, automation and information technology experts. From the beginning, Bioeasy is very dedicated for the rapid test technology development, engaged in medical rapid test, food safety, public safety and other fields.

Bioeasy is running with ISO9001 and TUV ISO13485 quality control system, as quality is our first priority. Most of our rapid test is with CE approved and some with American FDA approvals. And in 2019, we also set up the American operation center at California. From strategic point we focus internationally, ONLY, and we are not selling our products inside China so we do not need to be listed as a seller in China, since strategy is international markets.

So we are a Chinese legal registered company and authorized company to design, develop, produce and distribute the offered products but at international markets and of course Spain. Our activity is focused only in export to international markets and with export license and we hereby certify we comply with the needed local and international certificates to produce and supply according to standards to our clients globally.

So the production export of our CE products to Spain has been done according regulations.

With a focus on rapid detection, we are dedicated to provide our customers with high quality products, services and overall solutions to tackle current and emerging issues, this Corona Virus Pandemic

is a very good examples; Bioeasy is one of the first company in the world respond quickly to develop the COVID-19 rapid test, including the antigen and antibody rapid test; and all of Bioeasy COVID-19 rapid test are officially CE-IVD approved, so we are free to do the exportation and sell in EU; and till now, we had been export to many countries, and following is some of the list for your reference:

Countries	Test
Korea	337,000test (another 5million test is under production)
Italy	1500
Georgia	2000
Bulgaria	1250
Qatar	3000
Armenia	6000
Jordan	13000
Malta	10000
Oman	10000
Ukraine	40000

Regarding this issue happened at Spain, as it`s the rapid test kit, so

following the protocol is very important, however, in order to make sure that all the operator will be familiar with this test and patients get best diagnostic, we are going to replace all the orders for the Fluorescence Antigen test to Spain, so as to ensure the test kit sensitivity and the specificity, and help Spain fight with COVID-19!

Yours Sincerely

Shenzhen Bioeasy Biotechnology Co.,. Ltd.
